

Thank you so much for your interest in volunteering for Habitat for Humanity Greater San Francisco! The safety and well-being of volunteers, colleagues and partners is our highest priority. Please read more below about the safety measures we are taking and the protocols you can expect while volunteering at all Habitat GSF work sites. We look forward to seeing you and thank you for your support!

WHEN YOU ARRIVE FOR YOUR VOLUNTEER SHIFT:

- **Covid Screening Questions:** Please be aware that upon entering the site, you will be asked questions to screen for risk of exposure and to help facilitate contact tracing. Note that if in the last 14 days, you have tested positive, are awaiting results, or are experiencing, or have been exposed to individuals with, symptoms, you will be declined entry to the site.

MASK PROTOCOL

- Please wear a mask at all times. Given the highly infectious Delta Variant, we are requiring our volunteers and staff to take the extra precaution of wearing a mask in both indoor and outdoor settings. We appreciate your kind cooperation in keeping our community safe.

CLEANING & HAND WASHING

- Please be sure to regularly wash or sanitize your hands
- If you leave the site during your shift, please wash or sanitize your hands on re-entry
- Please bring your own work gloves and eye protection if you have them
- Tools will not be shared and will be sanitized at the end of the day
- High touch surfaces will be cleaned and sanitized regularly throughout the day

LUNCH & WATER

- Please bring your own bagged lunch
- Since communal water has been discontinued, HGSF will have single-serve water bottles available. We also ask that you bring your own water bottle and extra water for the day
- Please do not share any food or drinks

SOCIAL DISTANCING

- Please practice social distancing of at least 6 feet
- Please refrain from taking breaks and lunches with people outside of your household

If you have any questions or concerns, please email volunteer@habitatgsf.org or call 415-625-1012.
